

IRWA Macroinvertebrate Sampling Data Sheet

SITE ID #	LOCATION:
Sampler(s) Names:	
Date:	Time:
Macroinvertebrate Sample Collected (circle one) YES NO	
Number of sample containers _____	
Observations:	

Weather (circle one)

Clear Partly cloudy Cloudy Overcast Drizzle
Rain Snow Fog Sleet Other

Rain in Last 48 Hours (circle one)

Heavy Light None

Water Quality

Dissolved oxygen (mg/L)		Temperature (°C)		Conductivity (μ S/cm)	
----------------------------	--	------------------	--	-------------------------------	--

Site Sketch (Include a sketch of the monitoring site. This should be a “bird’s eye” view of the ~200 ft segment of the river you are sampling in including the macroinvertebrate sampling locations. Indicate notable features like riffles, runs, pools, large boulders, dams, tributaries, roads/bridges, wetlands, dams, riprap, pipes, ditches, landscape features and any land or water marks that will help someone else find your site.
